TIDEWAYS

That's us:

Tideways – the company:

- Owner-operated – Benjamin Eberlei founded Tideways in 2016 (after long time PHP engagement)
- Small – we are a team of 7 and happy about it – personal customer support is guaranteed
- Independent – Tideways is a self-funded Software-as-a-Service company – no investors, no exit strategy
- Software enthusiasts – Tideways is a product from developers for developers. Our customers are our focus and we try to do everything to make them happy
- Partnerships – we value strong relationships with our customers as well as our partners because we believe that working closely together makes each of us stronger

TIDEWAYS

The software

Tideways – the product:

- Tideways = essential tool for e-commerce companies
- Unique combination of features:
 - Monitoring -> track your project's performance
 - Profiling -> identify root causes of performance problems
 - Exception tracking -> identify coding errors and crashes
- What Tideways offers:
 - Insights into your customer's actions
 - Application & developer "wellness" (because Tideways takes the guesswork out of performance analysis)
 - Objective basis for decisions
 - Fast and healthy websites

PARTNERSHIP

Partnership
